Update concerning the COVID-19 virus.

March 26, 2020

Staff, parents and Glasgow community members:

Thank you for your understanding as we continue to navigate these ever-evolving situations in education. It has been a very interesting couple of weeks in the world of education. I appreciate all of your patience as we work through this unprecedented time in our world and specifically with schools and learning. The Governor of the State of Montana has continued to close schools across the state until April 10, 2020. The next date the school buildings would possibly be open to education would be April 14, 2020. **The Glasgow School District will continue education remotely to your son/daughter on Monday, March 30, 2020.**

Students, please be checking your school emails as communication from your teacher will be through that platform. I do know that some teachers have already reached out to their students and have started making connections with their students.

Parents and students in grades K-5, you have already and will continue to receive packets or digital work set up by your son/daughter's teacher. Teachers will meet you at least twice a week through an online forum or by phone. Teachers will notify you of their office hours as we move through this process.

Parents and students in grades 6-12, some of your teachers have contacted you as well. They will be contacting you through Google Classroom or another type of platform of their choice.

Attendance expectations for digital learning:

1. Attendance becomes less important and learning becomes more important.
2. Students are required to turn in work, email, join, speak, or chat depending on the platform chosen. This is how attendance will be taken at least twice a week.
3. Google Classroom/Google Meet, Zoom, Glasgow School Website, call, text, or email are ways that your teacher will communicate with you.
4. Please remember internet etiquette as well as proper usage of the technology.

Students are expected to check their Google Classroom and email daily. Teachers will be inviting you to the classes (Google Meet/Hangouts) through their email. Please remember to be responsible and respectful while you are on-line.

"The road to success is not a path you find, but a trail you blaze."

GLASGOW SCHOOL DISTRICT #1A

PO Box 28 ~ 200 7th Street North ~ Glasgow, Montana 59230

Parents, teachers have indicated that they have been trying to get a hold of their students. They have tried to call home phones and cell phones. We ask that you clean out your voice mailbox so messages can be left so we can work together to make this the best situation we can.

Respectfully submitted,

A handwritten signature in blue ink that reads "Wade O. Sundby".
